

A Partnership for Tech Co-Authors & Content Strategists

Turn a deep library of expert AI & Cybersecurity
research into a **shared revenue stream**.

An opportunity from Dinis Cruz.

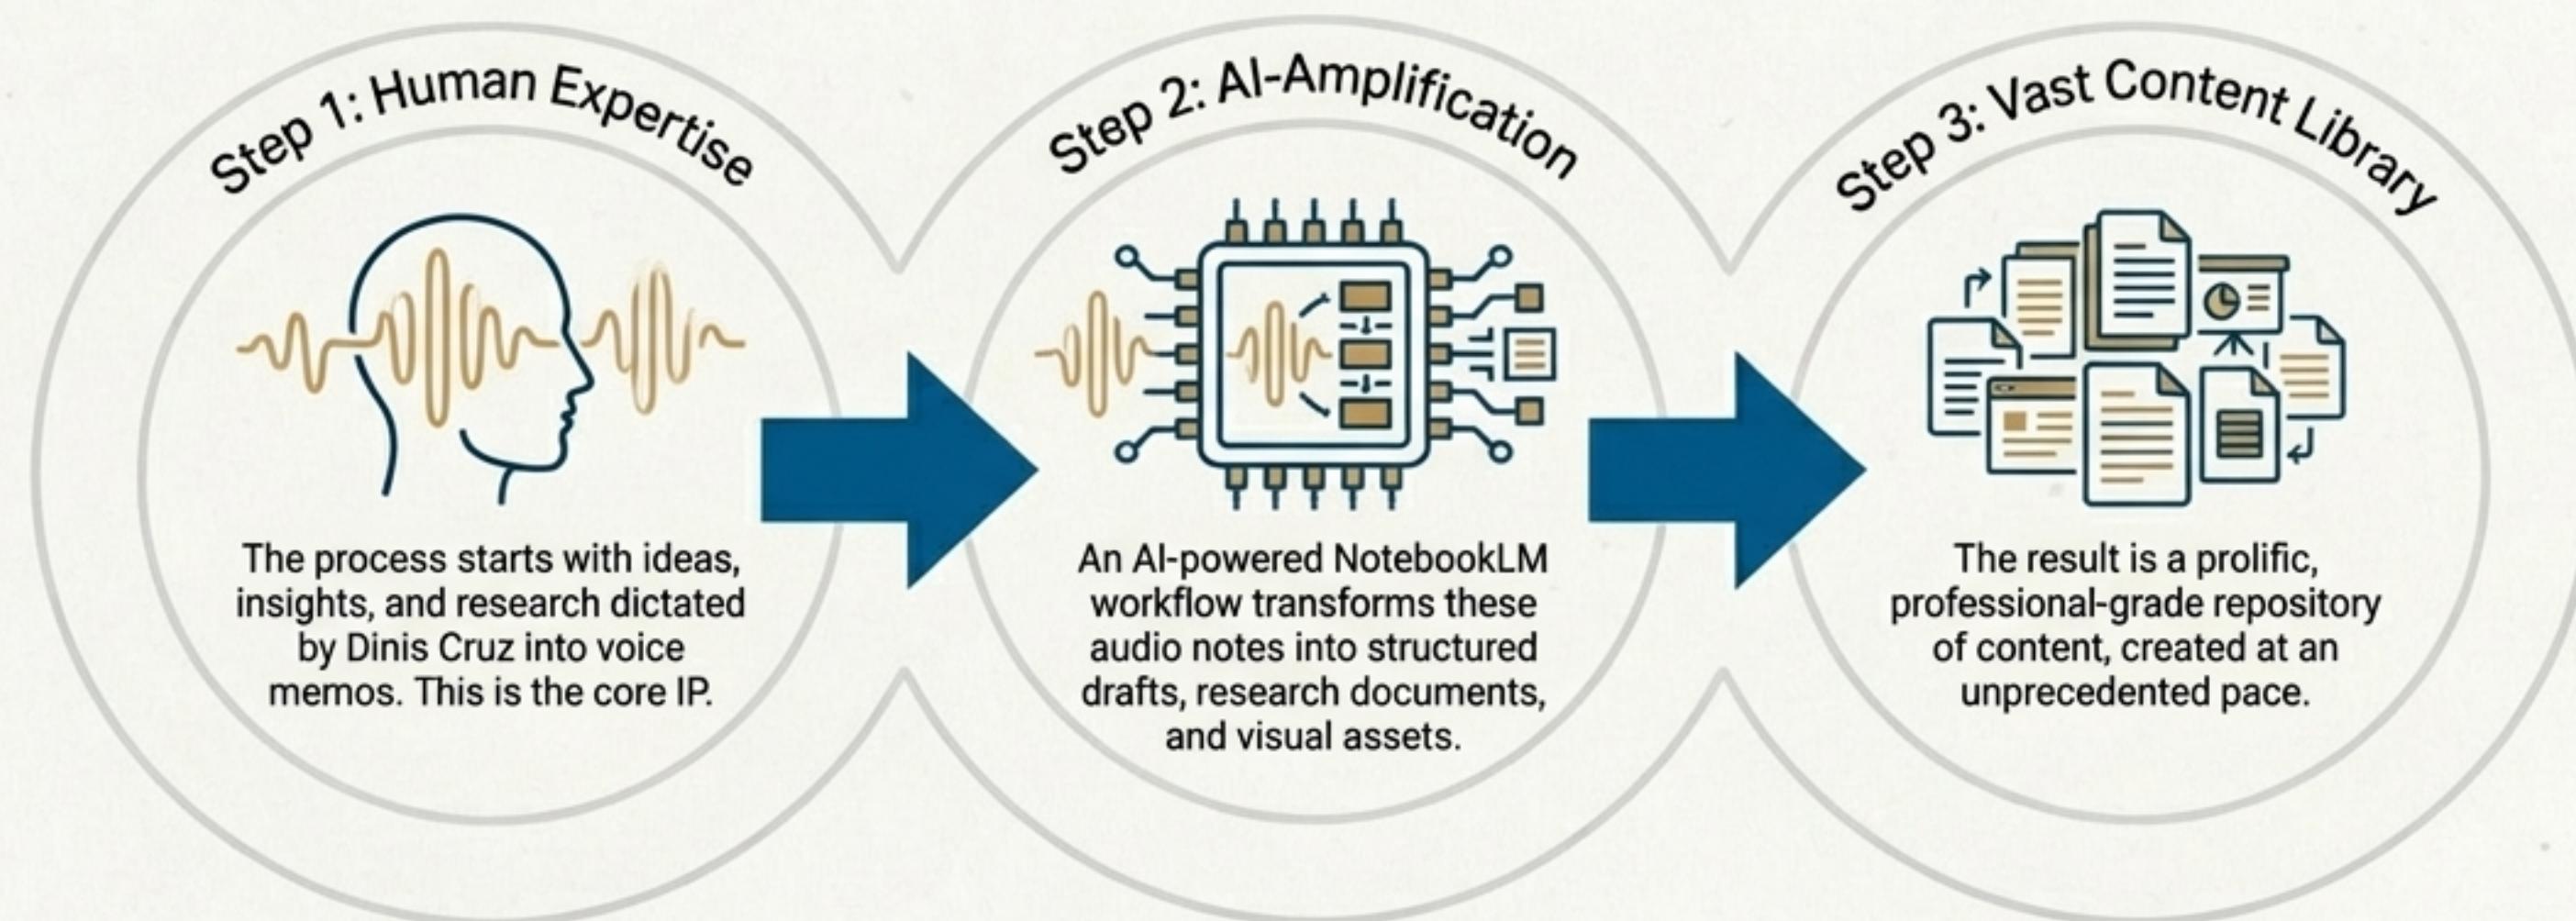

The Content Treadmill: Expert Knowledge is Hard to Scale.

Creating a steady stream of authoritative tech content is a major challenge. It requires deep expertise, significant research time, and constant effort to stay ahead of the curve. This bottleneck limits the reach of great ideas and burns out creators.

Our Solution: An Expert-Driven, AI-Amplified Workflow.

We've bypassed the content bottleneck by starting with the most valuable asset: human expertise. My ideas begin as personal voice memos from my ongoing research, which are then amplified by a powerful AI workflow.

The Result: A Treasure Trove of Content, Ready for Polish.

50+

High-Quality Documents
Generated in Weeks

1.6 GB

of Published Research

Formats

Whitepapers, Slide Decks,
Infographics, Guides

Generative AI & Development: LLM Coding Styles, GenAI Divide

Software Engineering: Iterative Flow Development (IFD), Type-Safe Python

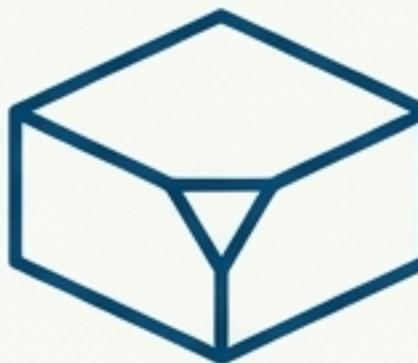

Cybersecurity & AppSec: Threat Modeling with Wardley Maps, DevSecOps

Knowledge Graphs: Self-Evolving Graphs with Neo4j

Open-Source & Startups: Multi-Startup Strategy, Lean Serverless

Your Role: The Human Touch that Creates Polished Publications.

What I Provide

- ✓ A continuous pipeline of ideas and raw content.
- ✓ Initial drafts, research, slide decks, and infographics.
- ✓ Deep domain expertise in AI & Cybersecurity.

Your Contribution

Refine & Rewrite: Transform technical drafts into an engaging human voice.

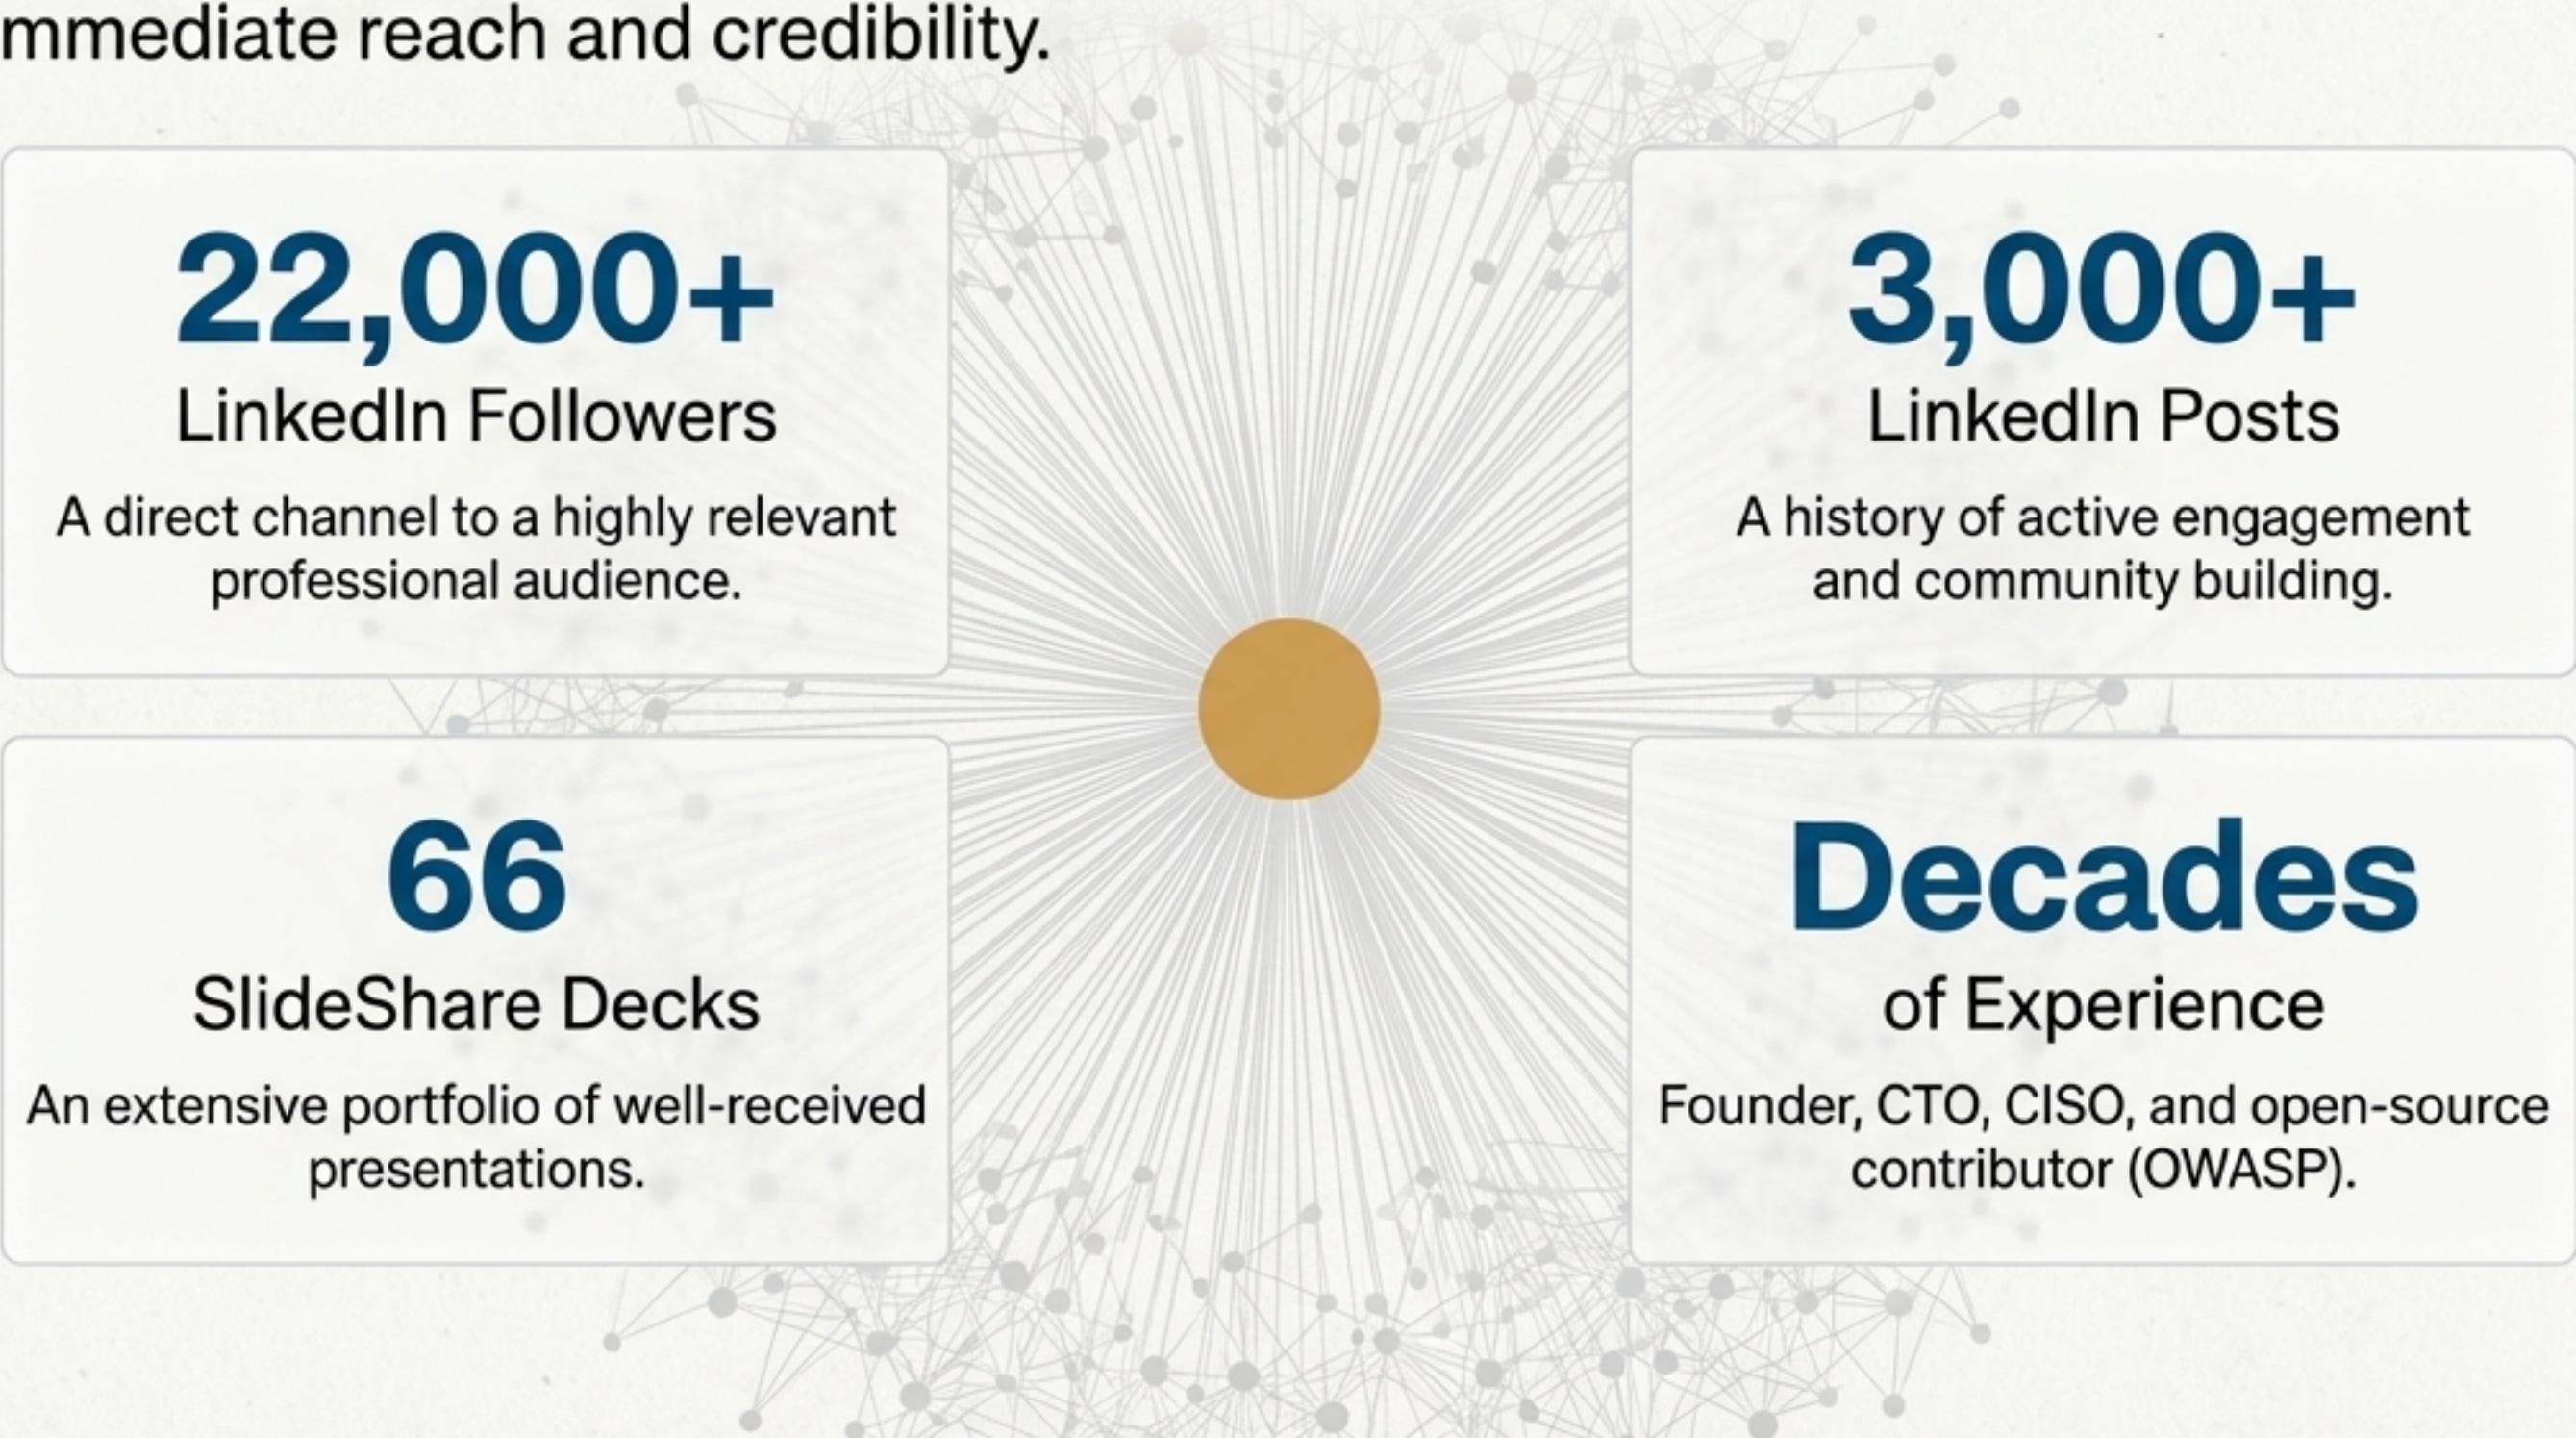

Adapt & Repurpose: Turn slide decks into blog posts, papers into articles.

Publish & Distribute: Get content in front of the right audiences on the right platforms (Medium, LinkedIn, Dev.to, etc.).

We Don't Start from Zero. We Start with a Built-in Audience.

Your work will be amplified through my established professional network, giving our content immediate reach and credibility.

22,000+

LinkedIn Followers

A direct channel to a highly relevant professional audience.

3,000+

LinkedIn Posts

A history of active engagement and community building.

66

SlideShare Decks

An extensive portfolio of well-received presentations.

Decades

of Experience

Founder, CTO, CISO, and open-source contributor (OWASP).

Our Partnership Terms are Simple, Fair, Fair, and Transparent.

Revenue Sharing

50/50 split on all revenue from content we publish together (Medium Partner Program, sponsored content, etc.).

Royalties

The 50/50 split applies for **1 year** post-publication.

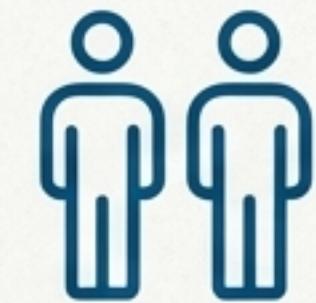

Licensing

All content is released under a **Creative Commons** license. Knowledge remains open, and we both can reuse the work.

Flexibility

No long-term lock-in. Either party can end the collaboration with 15 days' notice.

Attribution

We will be credited as **co-authors**, building your brand and portfolio.

Let's Create and Publish Together.

I have timely research ready to be published and am keen to start collaborating within weeks. If you are a skilled writer with an entrepreneurial mindset and a passion for technology, I'd love to talk.

How to Connect: Please message me on LinkedIn to start a conversation.
