The Graveyard: Why 'Obvious' Metaphors Failed

- ~~Whisp / Veil~~ Crowded. Competitors: `whisp.ly`, Veil Framework.
- ~~Glnt / Lume~~ Giant Conflicts: Microsoft Viva Glnt, YC Lume.
- ~~Zeph / Sifr~~ Crypto/Security Collisions: Zephyr Protocol, `sifr.tech`.
- ~~Brume / Dewly~~ Adjacent Conflicts: VPN gateways, AI apps.

Takeaway: The 'obvious' metaphors are fully saturated. Innovation requires invention.
