

STRATEGIC BRAND IDENTITY

SG/Send

Visual Direction & Design Systems v0.3.5

Zero-Knowledge File Sharing.
Security through Precision.

Zero-Knowledge, Zero Intimidation

SG/Send is a zero-knowledge encrypted file sharing product. The server never sees the contents. The user experience is akin to consumer file-transfer tools, but the backend is a cryptographic vault.

Key Insight: The brand must bridge the gap between ‘Technical Trust’ (encryption, keys) and ‘Approachability’ (ease of use).

The Brand Tension

Military Grade
Security

SG/

Consumer
Simplicity

**“Your files, your keys,
your privacy.”**

The Anti-Padlock Philosophy

THE INDUSTRY TRAP

Fear-based imagery. Aggressive angles. Defensive metaphors. Generic Blue.

NEVER USE: Cloud imagery, 3D effects, Skeuomorphism.

THE SG/SEND WAY

Elegance. Mathematics. The precision of code. Electric Teal.

The Slash is the Hero

The bridge between entity (SG) and action (Send).

The slash is not an icon sitting next to the text. It is the punctuation within the text. It serves as the visual focal point and separates the brand prefix from the product name.

Design Constraints & Physics

Minimalism No decorative serifs, script fonts, or illustrations alongside text. The brand relies on negative space.	Geometry Clean letterforms, precise spacing, mathematical feel. No rounded or bubbly shapes (not a children's app).
Era & Tone A 2026 tech brand. Modern, not retro. Engineered, not hand-drawn. No gradients on letterforms.	Finish No drop shadows. No 3D effects. Flat, vector-based precision.

Colour Specifications

Deep, Digital, Infinite

HEX #1A1A2E

Usage: Primary Backgrounds,
Text on Light

Electric, Active, distinct

HEX #4ECDC4

Usage: The Slash, Interactive
Elements

Clean, Technical

HEX #E0E0E0 (Text on Dark) /
#F0F0F5 (Light BG)

The Teal accent acts as the constant connector across both light and dark modes.

Typographic Voice

Geometric sans-serif. Medium-to-bold weight. Open letterforms.

Primary Direction: Clean and precise, but not cold.

Approved Typefaces:

1. DM Sans (Geometric, clean, open)
2. Outfit (Modern, slightly rounded terminals)
3. Plus Jakarta Sans (Contemporary)

Explicitly Rejected:

- Inter (Too generic)
- Helvetica (Too corporate)
- Futura (Too retro)
- Roboto (Too Google)

01. THE PRIMARY LOCKUP

SG/SEND

Centred Composition

High Contrast

Premium Feel

Adaptability: Light & Monochrome

SG/SEND

Light Mode Variant

SG/SEND

Monochrome Variant (Slash weight increased for contrast)

Iconography & Micro-Scale

The App Icon

For social avatars and mobile home screens.

The Favicon

For browser tabs. Tightly composed. Unmistakable.

The Scalable Product Family

The 'SG/' prefix is the constant. The suffix is the variable.

SG/Send
SG/Image
SG/Text
SG/Billing

The Slash acts as
the pivot point for the
entire ecosystem.

Contextual Application

Your files, your keys,
your privacy.

Prompt Strategy & Refinement

Core Prompt Instructions:

1. The **Slash** IS the brand.
Make it visually dominant.
2. If **too corporate**: Make it warmer, like a product to share with friends.
3. If **too casual**: Add precision.
It must feel engineered.

Exploration Matrix

The Evaluation Matrix

Criteria	Weight	Key Question
Distinctiveness	High	Would you recognise this at a glance?
Slash Prominence	High	Is the slash the defining element?
Scalability	High	Does it work at 16x16 pixels?
Family Coherence	Medium	Does it extend to SG/Image?
Approachability	Medium	Does it feel welcoming?
Professionalism	Medium	Would an enterprise buyer trust it?

Required Deliverables

1. **Primary Logo:** SG/Send on Dark Navy.
2. **Light Variant:** Inverted colours for warm white backgrounds.
3. **Icon Mark:** "SG/" for square formats.
4. **Monogram:** "S/" for favicons.
5. **Family Demo:** The full stack (Image, Text, Billing).
6. **Usage Mockup:** Web header context.
